world of Green Chic. Choosing to be green makes a real difference in the fight against global warming. But did you know that it's also hip, classic and stylish? Offering up dozens of author-tested, earth-friendly ideas, writer Christie Matheson reveals that being chic and saving the planet aren't mutually exclusive. Embrace the fabulousness of green living and you can: - Look gorgeous - Have a killer wardrobe - Feel amazing - Travel in style - Create a home that's an oasis - Host fun parties - Eat incredible food and drink phenomenal wine ... All while feeling more connected to your friends, family and nature. (And did we mention that green women don't get fat?) Printed on recycled paper, with a portion of its proceeds going to a green cause, Green Chic is the perfect book for style-savvy readers with a green heart. Can living a chic green lifestyle TRULY make a

difference to the planet? You bet your organic cotton sheets it can. Buying into the Green Chic movement doesn't mean you need to buy more stuff. Avoid products that purport to be green just for the marketing effect: "organic" processed foods; huge, gas-guzzling hybrid SUVs; clothes boasting that they're green just because they're made from "natural" cotton. Claiming to be green is trendy and companies out there are taking advantage. Don't believe all the hype. 10 GREEN CHIC-AND EASY-WAYS TO MAKE A DIFFERENCE - Ditch bottled water: refill a sassy thermos. - Pop little purchases in your purse, not a shopping bag. - Sip biodynamic wine. - Choose cashmere, not acrylic. - Let your hair air dry for a while before you blow dry: less frizz, less energy consumed. - Unplug (and put away) unsightly cell phone chargers. - Opt for quality over quantity in everything you buy. - Cut

down on clutter. - Limit your consumption of anything packaged in plastic. - Support local designers. BUT REMEMBER: Don't go out and replace everything you own, from your makeup to your wardrobe to your furniture, with (theoretically) ecofriendly products. Being ecofriendly means consuming less, not more. Get in the habit of thinking before you buy. The best time to purchase ecofriendly goods is when you need them. That's when you're in a position to make a choice and express yourself as a green consumer. Being Green isn't a fad ... it's timelessly chic.

Gorgeously Green Sophie Uliano 2008-07-08 Are you confused by all the advice you hear and see daily on how to "go green"? Eco-chic Sandy Black 2008
Eco-Chic: The Fashion Paradox is an examination of the relationship between fashion and environmental awareness - combating the universal reputation of eco-fashion as wholesome, undyed, shapeless and itchy. A new wave of sustainable shopping, affordable clothing, and ecological thinking has allowed eco-designers to create high-end, design-led collections rather than merely environmentally

sympathetic garments. Eco-Chic: The Fashion Paradox aims to address the preconceived idea of eco-fashion as a compromise in style and quality and places eco-fashion where it belongs at the forefront of design. Eco-fashion is changing its image from dowdy and well meaning to genuinely desirable and Eco-Chic: The Fashion Paradox is an analysis of fashion and ethical practice as the naked truth behind the clothes we wear is exposed.

A Moda num Mundo Global

Isabel Cantista 2011-05-01
Sendo a moda um fenómeno global, este livro tem como objectivo ajudar à compreensão deste fenómeno nas suas variadas vertentes, numa perspectiva internacional. O livro contém as reflexões de professores e investigadores de todo o mundo, e de várias áreas do saber. Numa abordagem pluridisciplinar e democrática, o livro dá voz a professores consagrados, mas também a jovens investigadores, procurando contribuir para ultrapassar as dificuldades que, muitas vezes, estes encontram, ao tentar publicar os resultados do seu trabalho. A obra destina-se, em primeiro

lugar, a gestores e profissionais do munda da moda que pretendam aprofundar as raízes deste fenómeno e ter uma perspectiva actual do que se passa na indústria e no retalho, a nível global. O livro é coordenado por Isabel Cantista, Francisco Vitorino Martins, Paula Rodrigues, Maria Helena Villas Boas Alvim e é composto por 15 artigos, escritos por 24 autores, nomeadamente: Ana Balda, Aleksandra Jatczak, Carlos Teixeira, Claire Watson Ma, Cristina Queijeiro Almeida, David Backhouse M, Francisco Vitorino Martins, Helena Alves, Isabel Cantista, Jorge Latorre, Juliana Floriano, Laura Meraviglia, Luiz Salomão Ribas Gomez, Magali Olhats, Miguel Neiva, Milton Luiz Horn Vieira, Mónica Codina, Paula Rodrigues, Pierre Xiao Lu, Rogério Sousa, Rui A. collected just that—literally hundreds of tips on all areas of our lives, be it raising kids, staying fit, dressing well, planning a wedding, gardening, dating, dieting, traveling, or working. Far from garden variety, the tips you'll find here are surprising—the sort that women used to get word-of-mouth from their own moms, grandmothers, aunts, and best friends. Some of the many helpful, and even hilarious, tips you'll read here include:

- To avoid blisters from new shoes, coat your feet with Vaseline.
- Invest in a certain number of “nice” hangers. When you start having to use the metal ones from the dry cleaner, it's time to clean out your closet.
- Impress guests with homemade-tasting mayonnaise by adding fresh lemon juice and capers or thyme to ordinary mayo.
- Perk up wilted ferns by spraying them once a month with weak tea.
- To find your car in an unfamiliar area, use

the camera on your cell phone to take a picture of the nearest street sign.

- Tone up your butt by squeezing it in quick reps of fifty while watching TV.
- To safely dispose of receipts and bank statements without buying a shredder, simply keep a container of water to pop them in and let them dissolve. And many more!

Do to Save the Earth John Javna 2008-04-01 Together, We Can Make a Difference Today's environmental problems may seem too overwhelming for one person to tackle . . . but you don't have to do it alone. Now you have partners--50 of them. 50 Simple Things You Can Do to Save the Earth, the revolutionary 1990 bestseller, is back in a completely revised, updated edition . . . and it's just as innovative and groundbreaking as the original. The authors have teamed up with 50 of America's top environmental groups, including The Natural Resources Defense Council, the National Wildlife Federation, and Rainforest Action Network. Each group has chosen one issue and provided a simple, step-by-step program that will empower you and your family to become citizen activists in the fight to save the Earth. It's easy to get started. Just pick one! Fight global warming "one city at

a time" with the Sierra Club's Cool Cities Campaign Roll up your sleeves and save an endangered species with the Wilderness Society Protect coral reefs and create a marine reserve with Seacology Get your congregation excited about protecting God's creations with Interfaith Power and Light Invite songbirds into your neighborhood with the National Audubon Society All it takes is a little effort. When we work together, we can work miracles! Get started now!

The Scavengers' Manifesto

Anneli Rufus 2009-03-19

Destined to become the bible for a bold new subculture of eco-minded people who are creating a lifestyle out of recycling, reusing, and repurposing rather than buying new. An exciting new movement is afoot that brings together environmentalists, anticonsumerists, do-it-yourselfers, bargain-hunters, and treasure-seekers of all stripes. You can see it in the enormous popularity of many websites: millions of Americans are breaking free from the want-get-discard cycle by which we are currently producing approximately 245 million tons of waste every day (that's 4.5 pounds per person, per day!). In *The Scavengers' Manifesto*, Anneli Rufus and Kristan Lawson invite readers to discover one of the most gratifying (and inexpensive) ways there is to go green. Whether it's refurbishing a

Bright Green Lies Derrick Jensen 2021-03-16 “This disturbing but very important book makes clear we must dig deeper than the normal solutions we are offered.”—Yvon Chouinard, founder of Patagonia Works “Bright Green Lies exposes the hypocrisy and bankruptcy of leading environmental groups and their most prominent cheerleaders. The best-known environmentalists are not in the business of speaking truth, or even holding up rational solutions to blunt the impending ecocide, but instead indulge in a mendacious and self-serving delusion that provides comfort at the expense of reality. They fail to state the obvious: We cannot continue to wallow in hedonistic consumption and industrial expansion and survive as a species. The environmental debate,

Derrick Jensen and his coauthors argue, has been distorted by hubris and the childish desire by those in industrialized nations to sustain the unsustainable. All debates about environmental policy need to begin with honoring and protecting, not the desires of the human species, but with the sanctity of the Earth itself. We refuse to ask the right questions because these questions expose a stark truth—we cannot continue to live as we are living. To do so is suicidal folly. ‘Tell me how you seek, and I will tell you what you are seeking,’ the German philosopher Ludwig Wittgenstein said. This is the power of *Bright Green Lies*: It asks the questions most refuse to ask, and in that questioning, that seeking, uncovers profound truths we ignore at our peril.”—Chris Hedges, Pulitzer Prize-winning journalist and author of *America: The Farewell Tour* *Routledge International*

Handbook of Sustainable Development Michael Redclift 2015-03-02 This Handbook gives a comprehensive, international and cutting-edge overview of Sustainable Development. It integrates the key imperatives of sustainable development, namely institutional, environmental, social and economic, and calls for greater participation, social cohesion, justice and democracy as well as limited throughput of materials and energy. The nature of sustainable development and the book's theorization of the concept underline the need for interdisciplinarity in the discourse as exemplified in each chapter of this volume. The Handbook employs a critical framework that problematises the concept of sustainable development and the struggle between discursivity and control that has characterised the debate. It provides original

contributions from international experts coming from a variety of disciplines and regions, including the Global South. Comprehensive in scope, it covers, amongst other areas: Sustainable architecture and design Biodiversity Sustainable business Climate change Conservation Sustainable consumption De-growth Disaster management Eco-system services Education Environmental justice Food and sustainable development Governance Gender Health Indicators for sustainable development Indigenous perspectives Urban transport The Handbook offers researchers and students in the field of sustainable development invaluable insights into a contested concept and the alternative worldviews that it has fostered.

Ecopiety Sarah McFarland Taylor 2019-11-12 Tackles a human problem we all share—the fate of the earth and our role in its future Confident that your personal good deeds of environmental virtue will save the earth? The stories we encounter about the environment in popular culture too often promote an imagined moral economy, assuring us that tiny acts of voluntary personal piety, such as recycling a coffee

cup, or purchasing green consumer items, can offset our destructive habits. No need to make any fundamental structural changes. The trick is simply for the consumer to buy the right things and shop our way to a greener future. It's time for a reality check. Ecopiety offers an absorbing examination of the intersections of environmental sensibilities, contemporary expressions of piety and devotion, and American popular culture. Ranging from portrayals of environmental sin and virtue such as the eco-pious depiction of Christian Grey in *Fifty Shades of Grey*, to the green capitalism found in the world of mobile-device “carbon sin-tracking” software applications, to the socially conscious vegetarian vampires in *True Blood*, the volume illuminates the work pop culture performs as both a mirror and an engine for the greening of American spiritual and ethical

Plant the Tiny Seed

Christie Matheson

2017-01-24 There is magic in every tiny seed. The seeds that come in little paper packets and those that fall from flowers and plants. In every garden and every flowerpot, magic can grow. With a little sunlight, a little water, and a little help from birds and worms and bees, a tiny seed sprouts, a plant grows, and a beautiful flower blooms. There is magic in every tiny seed. Ethical Consumption Tania Lewis 2013-01-11 A not-so-quiet revolution seems to be occurring in wealthy capitalist societies - supermarkets selling 'guilt free' Fairtrade products; lifestyle TV gurus exhorting us to eat less, buy local and go green; neighbourhood action groups bent on 'swopping not shopping'. And this is happening not at the margins of society but at its heart, in the shopping centres and homes of ordinary people. Today we are seeing a mainstreaming of ethical concerns around consumption that reflects an increasing anxiety with - and accompanying sense of responsibility for - the risks and excesses of contemporary lifestyles in the 'global north'. This collection of essays provides a range of critical tools for

understanding the turn towards responsible or conscience consumption and, in the process, interrogates the notion that we can shop our way to a more ethical, sustainable future. Written by leading international scholars from a variety of disciplinary backgrounds - and drawing upon examples from across the globe - *Ethical Consumption* makes a major contribution to the still fledgling field of ethical consumption studies. This collection is a must-read for anyone interested in the relationship between consumer culture and contemporary social life.

Fallen Forests Karen L. Kilcup 2013-05-01 In 1844, Lydia Sigourney asserted, "Man's warfare on the trees is terrible." Like Sigourney many American women of her day engaged with such issues as sustainability, resource wars, globalization, voluntary simplicity, Christian ecology, and environmental justice. Illuminating the foundations for contemporary women's

environmental writing, *Fallen Forests* shows how their nineteenth-century predecessors marshaled powerful affective, ethical, and spiritual resources to chastise, educate, and motivate readers to engage in positive social change. *Fallen Forests* contributes to scholarship in American women's writing, ecofeminism, ecocriticism, and feminist rhetoric, expanding the literary, historical, and theoretical grounds for some of today's most pressing environmental debates. Karen L. Kilcup rejects prior critical emphases on sentimentalism to show how women writers have drawn on their literary emotional intelligence to raise readers' consciousness about social and environmental issues. She also critiques ecocriticism's idealizing tendency, which has elided women's complicity in agendas that depart from today's environmental orthodoxies. Unlike previous
