report on information and ideas, to conduct original research in order to answer questions or solve problems, and to analyze and create a high volume and extensive range of print and nonprint texts in media forms old and new. The need to conduct research and to produce and consume media is embedded into every aspect of today's curriculum.

International Journal of Qualitative Methods 2009, 8(4) 51 Redefining conceptual framework Current usage of the terms conceptual framework and theoretical framework are vague and imprecise. In this paper I define conceptual framework as a network, or "a plane," of interlinked concepts that together provide a comprehensive understanding of a phenomenon or phenomena.
