The Feminist Case Against Bureaucracy

Kathy E. Ferguson 1984 "Like it or not, all of us who live in modern society are organization men and women. We tend to be caught in the traditional patterns of dominance and subordination. This book is both pessimistic and hopeful. With devastating thoroughness, the author shows how pervasive these patterns of relationship are in our work lives and personal lives, and how deep they run -- into the very language of the organization and of ordinary life. This is not a book about how women can succeed in business, but a criticism of books like those success manuals and notions like that idea of success. The author sees bureaucrats and clients as the 'second sex'. To fit in properly, they just learn the skills necessary to cope with subordinate status, skills that women have always learned as part of their 'femininity'. Liberal reforms -- placing more women in management positions, for example -- are not enough. What is required is the emergence of an alternative voice, one grounded in the experience and perceptions of women, that will challenge the patterns of control found in every aspect of modern life. Public discourse today is not the

language of women even when women speak it. In this brilliant synthesis of the feminist literature and the literature on organizational theory and practice, the author suggests how a feminist discourse could interject into public debate a reformulation of the basic political questions of power, reason, and organization and thereby legitimate a concern of both autonomy and community. In the face of the massive incursions of bureaucracy into daily life, this is an important contribution to the project of human liberation."-- Publisher description.

A Natural History of Rape Randy Thornhill 2001-02-23 A biologist and an anthropologist use evolutionary biology to explain the causes and inform the prevention of rape. In this controversial book, Randy Thornhill and Craig Palmer use evolutionary biology to explain the causes of rape and to recommend new approaches to its prevention. According to Thornhill and Palmer, evolved adaptation of some sort gives rise to rape; the main evolutionary question is whether rape is an adaptation itself or a by-product of other adaptations. Regardless of the answer, Thornhill and Palmer note, rape circumvents a central feature of women's reproductive strategy: mate choice. This is a primary reason why

rape is devastating to its victims, especially young women. Thornhill and Palmer address, and claim to demolish scientifically, many myths about rape bred by social science theory over the past twenty-five years. The popular contention that rapists are not motivated by sexual desire is, they argue, scientifically inaccurate. Although they argue that rape is biological, Thornhill and Palmer do not view it as inevitable. Their recommendations for rape prevention include teaching young males not to rape, punishing rape more severely, and studying the effectiveness of "chemical castration." They also recommend that young women consider the biological causes of rape when making decisions about dress, appearance, and social activities. Rape could cease to exist, they argue, only in a society knowledgeable about its evolutionary causes. The book includes a useful summary of evolutionary theory and a comparison of evolutionary biology's and social science's explanations of human behavior. The authors argue for the greater explanatory power and practical usefulness of evolutionary biology. The book is sure to stir up discussion both on the specific topic of rape and on the larger issues of how we understand and influence human behavior.

Law enforcement Ray K. Robbins 1989-01-01 This book is a comprehensive resource for study of virtually all areas common to the day-to-day functions of peace officers. The material in these three volumes is designed and intended to complement performance objectives for the basic peace officer course of study and is organized to follow specific functional areas of minimum peace officer competencies. The format makes them valuable as reference resources and for thoughtful review of the major concerns in law enforcement. They may be used in peace officer training academies and for self-education by officers. Written in nontechnical language, they address the peace officer as a responsible, thinking, influential individual who exercises important discretion in carrying out daily responsibilities. Study aids include a glossary of relevant terms and concepts, a comprehensive index, and extensive review questions.

Applicant to Police Cadet Xavier Wells 2019-01-21 6 years, that's the time it took me from my first Police application to my first Hiring letter. It's a little-known fact for many starting out, and a very real reality for most that are in the process; that most Applicants don't make it through the hiring process on their first time out. I've probably made all of the mistakes there are to make, from not being prepared for Oral Boards and turning in inaccurate applications. This book doesn't just teach you how to be a standout applicant; it show's how to pick agencies, what Departments look for, and how to plan out your selections so that it benefits not only you but your family as well. In the end, I hope you avoid the hiring process pitfalls that plague so many and learn how to skyrocket the top of any hiring list, in a shorter time than it took me.
