Create Wealth with Private Equity and Public Companies

Norman Meier 2014-04-14 Getting the money you need to finance your business with Private Equity When starting a new business, you will need money. Depending on your business idea, you may not have the necessary funds to realize your idea. Most people think that going through a bank and getting a loan is the only way to get

started. They soon realize that banks are not willing to lend money on an idea. Too often, this is the end of the dream. Another way to finance your business idea is to raise money from private investors. There are many great business ideas that struggle to find investors willing to invest. Either they don't have a clear strategy on how the investor can invest or there is concern that the investor will take over control of the business. Investors may be wary if there isn't an exit strategy. The solution to the above problems is Private Equity. Private Equity can be defined as investments in companies that are not yet publicly traded on a stock exchange. A business should be set up in a way that there is a structure and plan for investors to be able to buy shares of the company. There needs to be a clear share structure in place so that the owner of the business does not lose control of the company but at the same time allows investors to participate. This book will teach you the basics of Private Equity and will explain how to structure a company to get it financed. It also covers the advantages on take a company public and how to do it.

How To Form a Florida Business Corporation James W. Martin 2022-05-13 James W. Martin is a Florida Bar Board Certified Real Estate Lawyer and Adjunct Professor of Law at Stetson University College of Law who, for over forty years, has practiced Florida real estate, wills, trusts, probate, corporations, nonprofits, and business law. The author has seen too many corporations improperly formed and maintained. Some failed to issue stock; others failed to hold annual meetings and file

annual reports; and others failed to maintain corporate records. Failure to comply with the basics of corporate law have resulted in real estate title problems, litigation, and potential personal liability. This book provides a step-by-step process with forms and checklists for forming and maintaining Florida business corporations to avoid these problems. It is primarily directed to lawyers because Florida corporations are legal entities created under the Florida Business Corporation Act, so having a law degree really should be a prerequisite to forming and maintaining corporations. However, the author realizes that we live in an age where nonlawyers freely access these materials on the Internet, so he has written this book in plain language that does not require a law degree to understand. But his message for nonlawyers reading this book is to be sure to engage a Florida-licensed lawyer on their behalf to review any document before it is signed or filed.
